

Overview of potentially harmful dust from Aggregate Production Operations (APO's) in our area

SAVEBURNET.COM

TCEQ has told us that they have NO air monitors in Burnet County... but how many APO's have they granted Permits to in Burnet County?

Total Facilities in Burnet County 58!

- Rock & Concrete Crushers 18
- Aggregate Production Operations 17
- Bulk Mineral Handling 10
- Asphalt Plants 7
- Concrete Batch Plants 6

Using past performance to predict the future

- We know that there are 3 active APO's near Marble falls
 - Capital Aggregate Inc. - with a size of 101 disturbed acres.
 - Collier Materials Inc. - with a size of 131 disturbed acres.
 - Texas Materials Group, Inc. - with a size of 450 disturbed acres.
- The proposed Rock Crushing site in Burnet is:
 - equivalent in size (acreage)
 - Only 15 miles away so it will have same wind and weather conditions
- Look at the following pictures that show massive amounts of dust being release. Is this what you want next to:
 - Two state Parks (Inks Lake & Longhorn Caverns)?
 - Camp Longhorn, where thousands of kids sleep in open-air cabins?

What can we learn from Marble Falls

CAPITOL AGGREGATES DELTA MATERIALS

Organization Name	CAPITOL AGGREGATES INC
